<p><b>General Comments</b></p> <p>Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival some children were inside finishing lunch while others were outside playing. One Educator was inside with the children who were eating and a few others who were playing quietly. The children were seen playing with Lego, decorating a box for a ring toss game and playing a game of Battleship. Slowly the group transitioned outside to join the rest of their peers.</p> <p>Outside the children enjoyed playing basketball, playing in the large wooden house, building a house with milk crates and waffle blocks while others played in the sandbox. An Educator sat with a child and was observed teaching them how to play a game of tic tac toe, while the other Educator walked around checking in with the other children. Outside the children have access to board games, drawing materials, skipping ropes, hula hoops and trucks. After the group had spent some time outside, one Educator took a few children inside to do some painting.</p> <p>During the visit today a few children were dropped off later from track and field. Attendance records were updated as they arrived. Allergies are posted in the entrance as well as the monthly fire drills. Throughout the afternoon the Educators were observed engaging with the children and using positive child guidance. There were many opportunities for children to express their interest through free play and outdoor exploration. The facility is bright, clean and organized. The cubby area is tidy, and the children's belongings are labelled. As discussed, please ensure staff files have a signed copy of their job description and list of duties and responsibilities.</p>
