General Comments

Licensing Staff arrived at the Facility to perform a Monitoring Inspection. Upon arrival, the Educators had walked to the school to meet the children at dismissal time. One Educator was observed at the front of the line while the second Educator was at the back. Once the group arrived at the facility, the older children stayed outside to play while the younger children transitioned inside to wash hands and eat afternoon snack.

The Educator stated the older group prefers to run and play outside before transitioning inside for afternoon snack. A group of children were observed playing basketball and other active games. Others were seen using hula hoops and playing in a wooden playhouse which they turned into a restaurant. Several children were interested in Licensing Staff and decided they were Inspectors. They were observed walking around the outdoor play space "inspecting" the materials.

Inside, the younger children had finished afternoon snack and were engaged in a variety of activities. One group had been working together this week to build a ship out of large building blocks. Another small group was observed sitting playing Trouble with the Educator. The indoor and outdoor environment had various resources and materials such as, finger knitting, cards, board games, books and crafting materials. Only positive child guidance was observed during today's Monitoring Inspection. The Educators were actively engaged with the children in activities and were heard offering words of encouragement. Staff files were reviewed today. Files were organized and contained all required documents.
