General Comments Licensing staff arrived at the facility to conduct the renewal inspection. At the time of arrival, educators were preparing to walk to the nearby school to meet the children and accompany them back to the facility. The environment was observed to be clean, organized, and well maintained. Upon returning from school, the children were divided into two groups. One group went indoors for snack time, where children washed their hands, sat together, and engaged in conversations about their day while eating. The Educator was actively supervising the group during snack time and advised them they could engage in free play once they were done their snack. Many children were observed playing with Lego's, and plenty were available. The second group remained outdoors and participated in outdoor play. Children played basketball, were drawing with chalk, and participated in dramatic play in the play kitchen. Educators were engaged with the children the entire afternoon. Staff and children's files were reviewed and verified. A reminder was provided to ensure that Medicare expiry dates are kept up to date in all children's files. Only positive child guidance was observed. Licensing staff recommends the program for renewal.
