<p><b>General Comments</b></p> <p>A monitoring inspection occurred on November 27, 2025. Preschool-aged children were observed in their indoor environment, where they were actively engaged in a variety of open-ended play experiences. Activities included Christmas tree craft making and a pretend cookie-baking project. For this activity, children used wooden blocks with photos of ingredients to "prepare" their cookies. Educators supported the play by cutting out cardboard cookies, which were placed in the play kitchen to "bake" while a story was being read. Once the cookies were ready, the children decorated them using a wide assortment of glueable materials provided by the educators.</p> <p>The indoor environment also featured a realistic desk set up with a phone and reception area, further enriching imaginative play. Documentation was displayed throughout the centre, capturing the children's daily activities and learning stories. Children were eager to share this documentation, demonstrating pride in their work and experiences.</p> <p>Administrative records were reviewed during the inspection. Attendance records were observed to be current and accurate, and fire drills were properly documented and complete.</p>
