General Comments

I was actively screened upon arrival and my temperature was taken. The reason for the visit was to meet all of the staff and to see the facility as this was my first time there. The designation agreement was also signed at this time.

Ratio was met , and even exceeded, during my visit. The staff were helpful in answering any of my questions, and they appeared to be actively involved with the children and their activities. I noticed that there were a variety of toys and materials for the children to play with and they appeared clean and in good condition.
