General Comments The children and educators spent time in the outdoor area for most of the day returning inside for snacks and lunches and a free play immediately after lunch. Children bring their digital devices several days a week to play during free play, so children were grouped in small groupings or individually playing and discussing their games. Educators checked in with children on digital devices throughout their free play period. Invitations of beading, coloring sheets and games were set up for all children. Resources are easily accessible throughout the space and children independently choose what they would like to do. Children were given a reminder of the transition to outside and children cleaned up. A smoothie was prepared and offered to children building on their topic of picnics today and then a snack of bagels, peanut butter, and cheese whiz was provided for afternoon snack which children were offered outside at the picnic tables. Children came inside to wash their hands before snack. The educator and licensing staff discussed the facility's regular water play with a large tarp and water. Children are supervised by an educator as each child slides on the tarp. Licensing staff will follow-up with Public Health to clarify their recommendations.
