General Comments
<p>The after school program went on a field trip today to Odell park to go sliding. The licenced space has a wide variety of craft supplies and other materials and activities for the children, such as books, puzzles, blocks, lego, and board games, among many other things. The program is planned out and posted, and appears to be active. I observed paper mache masks that the children made last week for their comic book- themed week.</p> <p>I noticed that the board members list that is posted is outdated and so will need to be updated. I discussed with the administrator that it would be good to have more of the children's work posted on the walls, and there will be in the near future.</p>
