General Comments

- Visit done at the center for a monitoring inspection.
- Ratio was respected during the visit.
- Educators observed to be engaged with children in activities
- In all rooms, evidence of purposeful planning based on children's interest and learning, webbing, invitation, photos and learning stories were posted.
- Recommended to rack the rocks in play ground so there is more protective surfacing around the play structure. The rocks were racked before I left the establishment.
- Children were playing outside during the visit..
