### General Comments

The Quality Assurance Monitor is on site for a monitoring inspection, during preschool time only.

The following elements were verified at the time of the visit:

- Child-to-staff ratios
- Administrative records maintained on site
- Daily programming
- If all required documents are posted in a visible and prominent place in the facility

Children's learning is visible through documentation. The Quality Assurance Monitor could see webbing and learning stories in the preschool room.

All required documents are posted on the parent board at the entry of the facility. Parents, staff members and anyone entering the facility are aware of the license status and any terms and/or conditions of that license.

During the inspection, children played outdoors.
