General Comments

The Quality Assurance Monitor (QAM) was on site this morning to conduct a monitoring inspection. At the time of the inspection, the school was closed, and school-aged children were present during the morning hours.

During the inspection, the QAM verified the following:

- Medication records
- Daily activities
- Daily routine
- Child guidance practices
- Indoor play area
- Indoor play area materials and equipment
- Health requirements

During the inspection, children were observed playing indoors and transitioning to outdoor play. A visual check of the indoor play area, materials, and equipment showed everything to be in compliance. Medications were securely locked and not accessible to children. Outdoor play is offered daily for one hour during each four-hour block of care. The facility implements an inclusive daily program.

No non-compliances were identified during this visit.
