General Comments

The purpose of the visit was to obtain documents for the license renewal application. The documents were received.
Upon arrival, it was noted that the facility was not in ratio. One educator had left for a dentist appointment as they had a tooth infection that needed to be looked at. The educator returned approximately 15 minutes after I arrived.
During the visit, it was noticed that a few spindles on the front step had broken away from the railing. These need to be screwed back into the step.
It was also noted that the click flooring in the afterschool classroom appears to be lifting and coming apart in a couple areas. The flooring needs to be looked at, and either be repaired or replaced.
