## General Comments

Visit to the facility to complete annual inspection. Ratio was respected at the time of the visit.

Discussion with operator: Educators who do not have a valid first aid and CPR certification cannot be left alone with a group of children until a copy of certification is received. Operator will advise the inspector of the registration and date of course.

Epipen are the only medication that can be easily accessible to staff members and are not required to be locked, however they are not accessible to children.

Observations: The preschool children were into free play when I arrived while the infants were outside. The infants came in and all children had lunch and a nap. Educator said that preschool children would be going outside after nap time.
