Comments:			

General Comments
<ul style="list-style-type: none">- Visit completed at the establishment in the morning for a monitoring inspection.- Ratio was respected during the visit.- During the visit, positive child guidance was witnessed.- Facility has a separate locked storage space for medication.- Administration of medication records are evident. Records are kept for each child when medication is administered.- The parent has access to the facility at any time when the child is present.- First aid kit and telephone are accessible on the premises and on each outing.- Toxic products, chemical products and cleaning supplies are locked and inaccessible to children.- Individual space is provided for diapers, creams and wipes for each child who is not toilet trained. Changing area is located one metre or less from a sink. Diaper changing procedures are posted in a visible place in the diaper changing area. Children are always supervised during diaper changing.- Observations: Infant room: The children played outside, came in from outside had lunch then went for a nap. 2-year-old room: During the visit administration of medication was witnessed. The educator filled out all necessary documents. The children played outside came in and had their lunch. Also, diaper changing, handwashing, lunch and naptime were witnessed. 3-year-old room: Upon my arrival the children were playing outside. The educator was looking at books with the children. Diaper changing and handwashing was witnessed.- Discussion with the educators on diaper changing and toxic products.
