General Comments
A visit was made to complete follow-up inspection. Ratio was respected during the visit. Discussion with educator regarding an infant who would be turning 2 years old in the following weeks.   Children younger than 24 months of age are not to be mixed with other age groups. Observations: All groups were having a nap/rest period when I arrived. A group of children that had woken up or did not sleep was outside. Once all educators have a valid first aid and CPR course, the facility will meet requirements under the Act and regulations. The licence will be recommended for another year.
