### General Comments

When I arrived at the center the 2 and 3 years olds were almost finished their nap time. Some of the children were still napping and others were quietly playing.

The 4 year old children were outside playing. I toured the outdoor play space. It is a large outdoor space. The children were enjoying the slide and their free play of tag. Some of the children were in the playhouse. I noticed that the educators had their attendance sheet and first aid kit with them.

When I went back into the center the children were having their afternoon snack and getting ready for their outdoor play time.

I reviewed some of the children's records. All seemed to be in proper order.

The children all seemed happy and content.
