General Comments

On the day of my visit the center was running very smoothly. It was a rainy morning so the children were inside. There were numerous activities taking place throughout the facility.
The three year old group were enjoying waterplay and cooking in the play kitchen. The theme of the week was "animal mania".
The two year old's were playing in the sensory bin and learning about butterflies.
The four year old group had wide range of activities happening in the room such as waterplay, crafts (making a caterpillar) blocks, lego and a couple children were mixing up a potion.
There is evidence of documentation and planned programming throughout the center. The webbing topics are the month of May and birdfeeders.
The center is airy and bright with many plants which makes the center very welcoming.
