General Comments

The Quality Assurance Monitor was on site for a monitoring inspection.
The following elements were verified:

Washrooms
Storage space
Personal belongings
Nutrition
Outdoor play area
Outdoor play area materials and equipment

A friendly reminder was provided to the administrator that eligible educators have until the renewal expiry date of October 31, 2025, to complete the required 10 hours of professional learning. The QAM noted that some educators still have a few hours of PL Hours left to complete.

During the walkthrough of the outdoor play area, the Quality Assurance Monitor came across a stationary piece of equipment that was blocked off with ropes. The administrator informed the QAM that the structure requires repairs and is currently not in use by children. The necessary repairs are scheduled to take place in the spring.

During the inspection, it was Crazy Hair Day. The Quality Assurance Monitor observed active participation from a large group of children and educators.
One group was engaged in making and playing with slime, while another group played with halloween sensory objects. Prior to the QAM's departure, children transitioned smoothly to outdoor play.

The child to staff ratio was respected.
