Name of Early Learning and Childcare Licensing Staff Lindsay Lewis		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival there was a small group of children observed in the front room. The children were observed building with Lego and playing Trouble with an Educator. Numbers are low today due to March Break.

Once the children had arrived and were settled the Educator took the group into a gym area. The group used sneakers to make a net and took turns playing goalie while the others tried to score. Another small group of children used exercise mats to build a fort. The children were observed taking breaks to have a drink of water. The Educator spent time with both small groups, engaged in their interests and conversations. When a child asked what time they would be having morning snack, the Educator announced to the group they would be cleaning up in a few minutes to have snack. Proper handwashing was observed before the children sat together to eat.

Staff files and child profiles were reviewed during today's Monitoring Inspection. Files were easily accessible, organized and tidy. One staff member is missing a Vulnerable Sector Check. A conversation was had with the Admin. The staff member currently is not working but will be returning this summer. They are aware the staff will need a Vulnerable Sector prior to returning. Only positive child guidance was observed today. The Educator engaged in conversation with every day, asking about their weekend plans and if they watched the hockey game that went into overtime last night.
