<p>General Comments</p> <p>A renewal inspection occurred today. The children were observed during morning inside play, snack, story/circle time. There is a wide variety of documentation displayed in the learning environment displaying the children's learning. On the day of the inspection, that evening, there was an Ice Cream Social that was going to occur for the preschool children and their parent/guardians. Discussed with Administrator loose parts, as questions arose about the use of them with the children. Small parts that can pose a choking hazard are to be used under direct supervisions of an educator only. If too small, then recommending that they be used in the school-age program only.</p>
