General Comments

A Monitoring Inspection was completed this morning. Children were observed outside at QAM's arrival. Children were observed playing in the fenced in play area - Tonka Trucks, swings, painting, reading, and collecting rocks and leaves for a later art activity. Children were also observed playing at the rock kitchen. Educators were observed giving the children a 5-minute warning for cleanup. Children were observed cleaning up their outdoor materials. Educators were observed lining the children up, doing a head count, and then walking the children to the big tree, for leaf play and songs. Once entering the building, children were observed washing their hands before snack. Children were observed sitting at their tables, eating snack. Several well-defined learning / play areas were observed - reading, building, arts & crafts, dramatic play, gross motor, texture wall, etc. Several forms of documentation were observed - open ended artwork, photos, and learning stories. Positive child guidance techniques were observed - educators using positive language, educators providing a wide variety of choices, and educators getting onto the children's level, when communicating.
