Part-time Early Learning and Child Care Centre	38	SCHOOL-AGE
ELCC Licensing Staff	**Position Title**	
Angela Tozer	Quality Assurance Monitor	

Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

When licensing staff arrived, the children and educators were outside. Three mats had been set up on the ground for children to sit and eat snacks afterschool. A wooden fence has been placed on one side of the play area to define the play space and block resources from rolling into the parking lot and road.

A variety of resources were available for children's play and children could access more in the storage bins. A gaga ball net has been set up, and the sand box was just removed for the upcoming snow. Children were independently playing throughout the space. Several children were playing basketball with a ball and basketball net, others had sticks, tennis balls, and cones passing the balls to one another and through a cone created obstacle course. Some children were sitting in the wooded area, and others were sitting on the mats talking and drawing. The educators moved throughout the space checking in with children and having discussions.

The indoor environment has been changed around and furniture removed creating a more open and cleaner space. The educator mentioned making changes to reflect the interests of the children and creating clubs to build on areas the children would like to learn or engage in such as quilting and comics. Educators were observed reminding children of game play, when needed and helping children resolve disagreements, if unable to resolve on their own.
