Type of Facility Full-time Early Learning and Child Care Centre	Maximum Number of Children 45	Ages of Children PRESCHOOL	
ELCC Licensing Staff Sophie Powers	Position Title Quality Assurance Monitor		

Order for Compliance	Regulation	Date to be corrected	Date corrected
----------------------	------------	----------------------	----------------

General Comments The Quality Assurance Monitor (QAM) was on site to conduct the renewal inspection. During the inspection, the QAM observed children participating in a bicycle rally, an activity where children rode bicycles that had been brought from home. The QAM also observed a group of children participating in a singing and musical instrument activity. Children were engaged in playing a variety of instruments and singing together. The activity was well attended, and children appeared to be enjoying themselves while participating. A discussion was held with the administrator regarding the importance of maintaining complete staff files and ensuring that all required documentation is printed, current, and readily available. While conducting a visual inspection of the outdoor play area, the QAM noted that a section of the playground was closed to allow for repairs to a play structure and its protective surfacing. The remaining portion of the outdoor play area was observed to be sufficiently large to accommodate the number of children currently enrolled. The administrator advised that the repairs are nearing completion and that the structure is expected to reopen soon. While reviewing professional learning certificates, the Quality Assurance Monitor (QAM) noted that two educators have not yet completed the required 10 hours of professional learning. The educators have until the end of October to complete their training and submit their certificates to the Quality Assurance Monitor.
