Comments: Deficiency is now compliant During the monitoring inspection an extension cord and other cords from electronics were accessible to children. The operator was able to relocate these cords so that they are no longer within reach of children			

General Comments
Visit done at home for a monitoring inspection. Ratio was respected during visit. One child was sleeping in the reading area upon arrival of licensing staff, it is required that children are offered a cot or mat during rest time so they are not resting on the floor. It is recommended that diapering procedures are reviewed by the operator as a soiled diaper was left on the changing table in the bathroom. Appropriate supervision was maintained at all times and positive behaviour guidance was observed.
