General Comments

- Visit completed at the facility in the morning for a monitoring inspection.
- Ratio was respected during the visit.
- Positive child guidance was witnessed during the visit.
- The materials are easily accessible and maintained clean and in good repair.
- The daily activities are purposely planned and documented and responds to the needs and interest of each child. Learning stories, pictures and children's art are posted throughout the facility.
- Facility has a separate locked storage space for medication.
- Administration of medication records are evident. Records are kept for each child when medication is administered.
- Individual space is provided for diapers, creams and wipes for each child who is not toilet-trained. Changing area is located one metre or less from a sink. Diaper changing procedures are posted in a visible place in the diaper changing area. Children are always supervised during diaper changing.
- Observations:
2-year-old room: The children were participating in free play and had snack. The children were participating in a group activity. They were having a discussion with the educator on sea animals and working on a sea animal project during the visit.
The educator and children are creating a memory wall. There are pictures on the wall with the activities the class has done.
3-4-year-old room: During the visit, the children created a sensory bin, washed their hands, and had their snack. The children are working on a healthy eating project. Parent arrival was witnessed.
- Discussion with the educators on medication, documentation, the indoor play area and materials.
