ELCC Licensing Staff	**Position Title**	
Mona Martin	Quality Assurance Monitor	

Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

- Visit completed at the establishment in the morning for a monitoring inspection.
- During the visit, the ratio was respected.
- Daily activities in the establishment demonstrate purposely planned and documented programming that provides children with time and space for free choice play experiences, as well as indoor and outdoor opportunities for physical activity individually or in groups. Children have opportunities to engage in various forms of literacy, express creativity and interests, explore the arts and sciences, and experience accomplishment and success. They are also supported in problem-solving and developing trusting, respectful, and supportive relationships.
- The daily routine at the centre includes outdoor playtime at least once every four hours when weather permits. Meals and snacks are served at recognized times, and a daily rest period is provided to meet the children's needs.
- Each napping child has a cot that is appropriate for their height. There is a space of at least 46 cm between rest equipment, and all nap equipment is washable and non absorbent.
- A first aid kit and a phone are always accessible on site and during outings.
- Observations: During the visit the children were playing outside.
- Discussion with the educators on Policy 902. The educators presented their documentation and planification of their activities.
