Comments:			

<p>General Comments</p> <p>When I arrived, the children were having some free play time before getting ready for morning snack. During the visit educators were observed sitting at the child's level when playing and reading stories to them. The classrooms are clean and nice organized. There is evidence of planned programming as seen by the monthly plans and learning stories posted throughout the facility. While taking ratio for each classroom, it was noted that there was one infant child in each of the two, two-year-old classrooms. The regulations state that infants cannot be combined any other age group unless it is before 8:30am or after 4:30pm and the ratio does not require more than one educator. The two infant children have been enrolled in the two-year old classrooms since the beginning of September. As there is enrolment is full for the infant classrooms the non-compliance will remain until the children turn two years old.</p>
