General Comments

- Visit to the facility for a monitoring inspection.
- Ratio was respected during the visit.
- No Medications are given to children at this centre.
- Daily incident log is maintained; parents are advised of the incident and signs the daily log.
- Educator was engaged with children during activities.
- Monthly emergency evacuation and fire drills are completed
- Learning stories posted highlights children's recent learning and interests, I could see documentation and pictures of a tea party children had with their family for Easter, documentation on children learning to follow instruction when drawing and lots more.
- Children's guidance is done in a respectful and positive way.

Observations: Children were into free play when I got at the center, they tidy up and got ready for a snack. During snack kids are counting how many items they have; educator is bringing different topics, so children are expressing themselves and giving their opinion on things. They are getting ready for their graduation; children practice their songs and dance.
