ELCC Licensing Staff <b>Troy Williams</b>	Position Title <b>Quality Assurance Monitor</b>	

Order for Compliance	Regulation	Date to be corrected	Date corrected
28(3) The premises of a licensed facility shall comply with (a) lighting, ventilation and other general health standards under the Public Health Act. Comments: There are gaps under the exterior doors that need to be repaired. This can create an entry point for pests.	28(3)(a)	Jun 05, 2026	
39(1) A licensed facility shall have storage space that includes: (b) easily accessible space to store the personal belongings of each child receiving services at the licensed facility. Comments: The coat hooks and shelves have not been installed as this was discussed during the relocation inspection.	39(1)(b)	Jun 05, 2026	

<p><b>General Comments</b></p> <p>This was the first monitoring inspection since the relocation in April. During the relocation it was noted that the hooks and shelving to store the children's person items had not been installed. It was advised that it would be installed. To date this has not been completed. The children's personal items are currently being stored on the floor against the wall. During the relocation inspection public health noted that " Daylight could be seen under some of the exterior doors in the facility. This can create an entry point for pests". This was to be completed after the opening of the facility and has not been corrected. This needs to be corrected as staff have been observing bugs and insects coming into their classrooms. The children seem to be enjoying the new space.</p>
