Address 15 Sugarmaple Lane Quispamsis NB E2E 4N2			
Name of Early Learning and Childcare Licensing Staff Jodi Hennessey		Position Title Inspector	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

A renewal inspection occurred today.
Upon arrival the Inspector observed the children finishing morning snack. The children were then observed during inside play, outside play and having lunch.
Discussed with onsite administrator that children who have yet to start school (kindergarten) are at the ratio of 0.1. The same for 4/5-year-olds. This is until the first day of school and then then switch to the school-age ratio of 0.67.
Discussed water bottles and recommending that the Educators ensure that the children have water bottles full of water each time they go outside of the facility to take with them on field trips, walks and in the outside play area. Children have access to water at the childcare facility but ensuring they have access to them outside will help when children are thirsty during outside play.
Discussed with the onsite administrator outside play and temperatures over 33 degrees.
Daily Routine: The daily routine of a licensed facility shall include:
(a) outdoor play for at least one hour in each four-hour block of time when the majority of children receiving services are in attendance except in the following circumstances:
(i) the wind chill is below -20 °C;
(ii) the temperature is below -20 °C;
(iii) the temperature is 33 °C with humidity or above;
Inspector reviewed all staff files, and they were verified complete. A random review of 25 children's files occurred and verified complete.
In the indoor learning environments, Inspector observed: children engaged in Lego, art, board games, dramatic play (Dolls and superheroes), a basketball game and hanging with their peers.
In the outside environment, Inspector observed the children engaged in a game of ga-ga ball, playing on a airplane teeter-totter and going and coming back from the school playground.
Facility is recommended for license renewal, pending the recommendations from Fire and Public Health.
