33(2) Stationary equipment in the outdoor play area shall be surrounded by a protective surfacing and installed according to the manufacturer's instructions.	33(2)	Aug 29, 2023	Aug 29, 2023
Comments: While on site QAM observed that the protective surface for the play structure was not at an appropriate depth. QAM reminded the staff members that the play structure should have a protective surface with a depth of 30 cm. Staff immediately took out a rake and raked the pea gravel so it would be at an appropriate depth. Staff members also mentioned that the operator will be taking down the play structure and that they would not let the children play on the structure anymore. QAM confirmed that if the pea gravel is raked and is at an appropriate depth there is no danger for children to play on it. Deficiency is now compliant			
40(1) An operator of a licensed facility shall ensure that personal belongings of a child receiving services at the licensed facility that are brought to the licensed facility, including combs, brushes, toothbrushes, towels, washcloths, bedding, pacifiers and soothers, are (a) labelled with the name of the child.	40(1)(a)	Aug 29, 2023	Aug 29, 2023
