General Comments

Completed follow up to renewal inspection today. The educators have implemented a new process for program planning and documentation. Each group now has a working binder within their group that demonstrates the plans for the month (established with the children through conversations about interests) and stories and photos of their past activities, work and projects. This was very organized and a great addition to the children's space. The children reportedly enjoy this and have a new sense of ownership within the program and their accomplishments. Ensure educators include the dates on documentation pieces as well.

Some of the children's current topics of interest are exploring experiments, sewing projects and water colour painting which were demonstrated within the daily programming and environment today. One group of children were engaged in completing an experiment (making elephant toothpaste) outdoors upon my arrival today. The children were mostly observed outdoors during today's inspection. Hand washing routines were also observed upon entering the building prior to snack.

The program has purchased some new books related to the children's topics of interest (chapter books, Lego and comic books) which are accessible daily. An art cart has also been added to facilitate the set up/take down of the art centre within the junior room.
