General Comments
<p>A renewal inspection occurred today.</p> <p>Children were observed outside, in the classroom and in the gym engaged in play.</p> <p>The indoor play environment was set-up in advance of children arriving with materials for children that reflect their current interests. The environment provided materials displayed at children's level that can be independently accessed. Open-ended materials were in each environment. Open-ended materials provide multiple choices, solutions and possibilities for exploration and investigation.</p> <p>Educators were observed using child positive guidance being sure to get down at the children's level when speaking with them.</p> <p>Inspector had a conversation with administrator about printing current documentation from their social media page and creating a binder for the children and parents to be able to reflect on what the children have been learning.</p> <p>Handwashing and snack were observed.</p> <p>All staff files and random review of children's files were complete.</p> <p>Facility is recommended for licensing pending Public Health recommendation.</p>
