General Comments
<p>The program has moved to different classrooms this year, and they are using classrooms 5 and 7, and the gym. I observed the classroom programming and planning by the educators is evident. Today the children were making monsters with craft supplies in each classroom. The children seemed to enjoy this activity before going outside. The program appears active and the educators were engaged with the children.</p> <p>I observed educators using positive child guidance techniques such as gentle reminders, time warnings, appropriate use of humor, and redirection. The educators also demonstrated good classroom management techniques.</p> <p>The child files and staff files are well organized and complete, and documentation relating to COVID is present. Everything is compliant with licencing regulations and I recommend for renewal of the licence.</p>
