General Comments
<p>Both groups of children went directly outside when they arrived from school to enjoy the gorgeous weather. The children were so excited to be able to play outside and enjoy the sun! Educator informed me that they had planned to stay outside for the better part of the program.</p> <p>Children were observed playing on the play structures, playing basket ball, running after one another. Educators provided children the opportunity to work on some school work or arts/crafts while they were outside should they wish.</p> <p>Educator was observed constantly moving around the playground to ensure she was able to properly supervise the children at time of inspection. She was observed taking a genuine interest in each group of children's play. The same was observed when the second educator arrived.</p>
