Address 111 Park Street Fredericton NB E3A 2J6			
Name of Early Learning and Childcare Licensing Staff Jennifer Godin		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Children were outside for the entirety of today's monitoring visit. Educators ensure they had hand sanitizer for the children that they could use before/after snack, and whenever it was required. Educators also ensured all children applied sunscreen once they arrived from school.

This facility uses the school's playground as their outside play space. Children were observed playing on the play structure, playing "4 square", reading, playing on the swings, and making roads to different provinces in the gravel. Children explained to me that they made a road from New Brunswick to PEI, and a round-about to Nova Scotia. They told me they had several stops along the way such as a Tim Horton's, McDonald's (with a drive thru), gas stations and hotels! Educators were observed bringing some materials from inside the facility outside for the children to use, such as additional cars/truck and art supplies. Educators also have a large bag they bring outside with them that contains balls, shovels, and other material for the children to play with.

Educators were observed constantly moving around the playground to ensure proper supervision of the children while they were playing. Also observed educators taking part in the children's play while they were outside.

It was observed today that the red and white play structure appears to be showing signs of rust. Please ensure the school is aware, and ensure children are using the play climber safely. Should the rusted parts become a safety issue for the children, it is recommended that the play structure not be used until it is sanded down and repainted.
