General Comments

When I arrived, the children were getting ready to go outside.

While outside, the educators were observed walking around the playground, ensuring proper supervision of the children considering the large outdoor space.

Educators were observed asking parents for ID upon pick up and ensuring children were released to only approved individuals.

At second dismissal, the first group came inside, and the other group went outside, and the gym became available at 3:15.

Staff were engaged with the children, laughing with them and were heard providing positive reinforcement.

I would recommend that the daily set up routine be revised. Today only one educator was setting up while children played. There was additional staff today to help supervise the children considering the inspector was on site inspecting, but on a normal day it would only be the two educators onsite. Both educators should set up, to ensure efficiency, but also to ensure the children are supervised during setup. If only one staff is setting up the gym, then this educator is in and out of the storage unit, leaving children unsupervised at times. A reminder that the gym must be set up every day once it becomes available.

I recommend for renewal.
