General Comments

- Visit completed at the facility in the afternoon for a monitoring inspection.
- During the visit, ratio was respected.
- The material in the indoor play space is easily accessible. The material is varied and in sufficient quantity for all children present.
- The following administrative records are maintained on-site. Financial records, daily attendance of children and staff, monthly emergency evacuation fire drills, smoke alarm, smoke detector and fire extinguisher inspection and maintenance records.
- The two personnel files and three associated person files were verified during the visit. The employee and associated person's files contain all required documentation.
- Posted in a visible and prominent place in the facility are the following documents: The license, inspector's report, daily routine, evacuation procedures, name of administrator, name and telephone number of QA Monitor and inspector and when it applies a notice to inform parents of the existence of a communicable disease. This information can be found at the top of the stairs on the parent board before entering the facility.
- Observations:
Naptime, handwashing, free play and snack were observed during the visit. Each child brought their snack from home. The children did not go outside because of the humidex was too high. During free play the children were creating with blocks and Polly pockets. Also, parent arrival was witnessed.
Educator was observed having discussions with the children and engaged in the children's play. At the present time, the children are interested in shapes.
- The operator presented me her webbing and learning stories. The documentation demonstrates the children's interest and progress through time. Learning stories, family pictures, children's art and webbing is seen throughout the facility.
