ELCC Licensing Staff Veronique Berube	Position Title Quality Assurance Monitor	

Order for Compliance	Regulation	Date to be corrected	Date corrected
----------------------	------------	----------------------	----------------

<p>General Comments</p> <p>The Quality Assurance Monitor is on site in the morning to conduct a monitoring inspection. The child to staff ratio was respected.</p> <p>The following elements were verified:</p> <ul style="list-style-type: none"> - Checks - Staff members records - Qualification and training - Administrative records maintained on site - Premises - Safety - Transportation <p>The Quality Assurance Monitor had a discussion with the administrator regarding designation requirements. The administrator confirmed that the Quality Improvement Plan is current and that the 10 hours of professional learning required for this renewal year are in the process of being completed.</p> <p>The Quality Assurance Monitor observed that one of the doors, specifically the main entrance used by parents, staff members, and children, could not fully close. Due to the weather and time, the door no longer shuts properly. However, there is a second entrance door that closes appropriately. The operator is aware of the issue. The Quality Assurance Monitor informed the administrator that an Application for Change must be submitted to the department regarding this.</p> <p>It was also observed that the outdoor playground inspection and verification records were not available on-site during the inspection. The educator in charge had left the records at home and retrieved them while the Quality Assurance Monitor was on-site. A reminder was provided that all required records and documentation must be always kept on-site and readily available for review.</p>

General Comments

The Quality Assurance Monitor observed the children eating their morning snack and then playing in the indoor play area due to the rain, which prevented outdoor play. The children were observed dancing to music, playing in a Jello sensory bin, with playdough and singing with the educators. The children were also observed transitioning to eat their lunch (lunch boxes). Positive interactions were observed between the educators and the children.
