General Comments

The inspection was conducted in two days: March 17th and March 18th. The inspector observed the children arriving from school to the facility. Children had their snacks and were divided into their groups. The inspector had a discussion with the administrator regarding the importance of educators knowing the exact number of children they have in the groups at all times.

The inspector did not observe the children playing outside; therefore, the outdoor play area was not inspected. This will be conducted at a later time by a member of the licensing team.

The inspector had a discussion with the administrator regarding the daily attendance. The ratio is respected during the inspection.
