<p>General Comments</p> <p>Regular monitoring inspection was performed on this date.</p> <p>The older children were seated at the table playing with playdough, playdough toys and dinosaurs upon arrival of licensing staff. The younger infant was seated on the floor and playing with little people and the older infant went between drawing at the table to playing with items on the floor.</p> <p>Children's files were reviewed and contained all necessary documentation and were well organized and easy to review.</p> <p>Newly enrolled infant seems to be well adjusted and was very content throughout the inspection. The indoor play space was clean and well maintained with all accessible items being safe for an infant to engage with.</p> <p>Children were excited to talk about the snowfall that was predicted for the next day and the educator got a ruler to show the children how much snow was expected to fall.</p> <p>Positive behaviour guidance was observed throughout the inspection.</p>
