| General Comments<br><br>I was screened, my temperature was taken and I was logged in upon arrival. The center is clean and the set up for COVID works well. Planning is evident and children's work is displayed throughout the center. Cleaning and proper handwashing were observed at the time of the visit. Everything is also in compliance with licencing regulations and I recommend for licencing. |                           |                                      |                |
