General Comments

This visit was to check in with the facility, ensure they are following covid guidelines and sign the designation agreement. It was quiet/nap time when I arrived. Activities were set up throughout one classroom for non-sleepers and children just waking up. Two educators and a support person were in the quiet room with 6 children. In the second classroom, an educator was with the remaining 3 children napping. I was screened upon arrival and added to the visitor log. I observed educators sanitizing toys between use. The operator stated they have downsized resources to ensure proper cleaning which has created less clutter. The children in the quiet room were engaged in play throughout the room. Designation agreement reviewed and signed.
