Address 9 School St Perth-Andover NB E7H 4T4			
Name of Early Learning and Childcare Licensing Staff Nancy Glendenning		Position Title Inspector	
Order for Compliance	Regulation	Date to be corrected	Date corrected

### General Comments

The environment for the children is child lead and educators do everything that they can to complement the children's interests. There are many learning centres and developmentally appropriate materials available to the children. The children's work is displayed throughout the centre.

In the full-time preschool please continue to develop a curriculum based on the children's interests and demonstrate a pre-planned program for the children. One of the educators who is new is journaling to build on children's ideas and licensing staff recommended using children's photos, learning stories, or portfolios, etc.. to document the children's learning. Please refer to the NB curriculum Framework for further direction.

Educators were observed speaking to children at their level, taking interest in their activities, and redirecting challenging behaviours.

Filing system is maintained in a complete and organized fashion and therefore all information was easily verified by inspector for licensing.

The outdoor play space is currently snow covered and will be re-inspected in the Spring to ensure the proper amount of surfacing is in place and safety for the children. The administrator stated that pea gravel was added to the outdoor play space.
