31(3) An operator shall maintain the outdoor play area of a licensed facility to ensure the safety of the children.	31(3)	Aug 07, 2020	
Comments: The outdoor play area offers oodles of play opportunities and ample shade. However, additional protective surfacing is required around the stationary play structures as per stated in section 9.3.2. Operators must conform, at minimum with CSA standard regardless of height.			
31(6) The outdoor play area of a full-time or part-time early learning and childcare centre at which services are provided to infants or preschool children shall be enclosed with a fence at least 1.22 m in height with a gate that is secured at all times when the children are present.	31(6)	Aug 07, 2020	
Comments: The gate is not currently latching and the space beneath should be under 4 inches. Currently over a foot or more and children could easily escape.			

<p>General Comments</p> <p>Renewal Inspection performed.</p> <p>*Covid-19 recovery phase guidelines are being followed - signage posted and washing hands posters observed. Children observed washing hands before eating lunch and when coming in from outside play.</p> <p>*Currently the centre due to Covid-19 are not serving snacks.</p> <p>*The operator ensures all children have opportunities for outdoor play and each group go outside at different times. Staff are cleaning and sanitizing in between groups.</p> <p>*All administrative files were reviewed and files are impeccably organized and complete.</p> <p>*Staff were observed using appropriate child guidance practices. Staff observed providing assistance with toileting and enjoying pleasant conversation during my visit. Many children after finishing lunch go down for a nap or participate in quiet time activities.</p> <p>*Operator has a few compliances to address in the outdoor play area. After discussion with the operator she has pea gravel on order. She will also address the gap under the gate and latching.</p> <p>Thank you for the visit.</p>
