General Comments
<p>A renewal inspection occurred today. The children were observed having meaningful conversations with their peers and educators. Educators listened to each child giving them time to think about and express what they are feeling. The children showed licensing what they brought in their lunches and also which nap bed belonged to them. Educators were observed giving each child room for independence while allowing them to partake in preparation for each transition.</p> <p>Learning stories were displayed that were unique to each individual child, including one leading up to when a child took their first steps " I'm walking".</p> <p>Documentation was wildly shown in each environment that was reflective in children's currant interests, curiosities and passions.</p> <p>Props and materials were displayed at children's level to be independently accessed.</p> <p>Licensing observed a pizza party to celebrate the graduation of Pre-School. The children were so very excited to re-cap their morning of bowling.</p> <p>All checks were complete. Staff and children's files were organized, observed and complete.</p> <p>Each educator had a binder that displayed learning opportunities the educators have completed along with the required amount of personal development hours.</p> <p>Licensing had a conversation with operator and admin to add to their Parent handbook in regard to their aggressive behavior policy. Operator will send new policy to inspector once completed.</p>
