### General Comments

Children were outside playing when I arrived for today's monitoring visit. Educators ensure they were constantly on the move to ensure they were able to properly supervise the children. Children play in the grassed area right next to the building, there are no play structures, but educators ensure to bring an outside activity bag filled with balls, skipping ropes, badminton rackets, etc, for the children to play with. When the second bus arrived to drop children off, educator was observed greeting each child individually as they were getting off the bus.

Observed positive child guidance practices such as offering choices and assisting children in decision-making and using gentle reminders when needed. Educators were observed constantly interacting with the children during today's visit.

The indoor environment is set up in a way that promotes independence by arranging all play material on low shelves so that children can have the choice to pick their own toys.

Please ensure to have this monitoring visit report printed and posted to the facility's parent information board,
