General Comments

All children were outside when I arrived for today's monitoring visit. Children were observed partaking in a variety of different play during today's visit, such as playing in the trees, imaginary play with sticks, badminton, dodge ball, colouring, with skip-its, skipping ropes, etc.

Educators were observed constantly on the move and interacting with children to ensure they could properly supervise. They were also quick to act when children were upset.

There are many large trees in the outside play space that provide ample shade for the children while playing outside.

All staff files that were observed today were found to be well organized and contained all documents required for licensing regulation.

There is a decent size washout on the walking path where children play, please ensure that UNB is aware so that they can fill it in. In the meantime, it is recommended that Go-Go place orange safety cones around the area for the safety and security of children and educators.
