General Comments

Upon arrival for an annual renewal inspection, licensing staff observed children playing outdoors on the grass area. Activities included drawing with chalk, playing with balls and frisbees, and engaging in a game of catch with the educator. Children were offered the flexibility to enjoy their snack at any time while continuing outdoor play for the remainder of the day.

Inside the classroom area, a variety of materials were available to support learning and engagement. These included books, toy vehicles, science materials, building blocks, kitchen play items, and an art center. An easel displayed trivia questions designed to spark conversations and engage children in discussions about current events.

The daily attendance records were filled out and a first aid backpack was available at all times.

Licensing staff recommends for renewal.
