General Comments
Children and educators were observed in the indoor and outdoor play environments during today's inspection. Indoors children were participating in an escape room activity, working cooperatively to solve the puzzles together. Children were also provided with time for free choice activities. Outdoors, children participated in active play on the outdoor equipment and games with their educators.

Materials and invitations were set up in the indoor play environment providing a variety of choice for children to engage with materials. Shelving and displays are inviting and organized in such a way that children can independently access materials and labeled for independent clean up.

Hand washing and bathroom routines were observed multiple times throughout the inspection. |
