21 A licensee shall post the following documents in a clearly visible and prominent place in the facility associated with the licence: (a) the licence; (b) a report provided under section 23; (c) an order issued under section 28; and (d) a probationary license issued under section 29.	21(a) – (d)	Nov 18, 2025	
Comments: The license posted at the facility indicated a capacity of 45 children and belongs to a different Go-Go location. The correct license must be posted in a visible and prominent location within the facility, as required.			
24(1) For the purposes of subsection 20(1) of the Act, the following records and documents shall be maintained on the premises of a licensed facility: (f) daily attendance records of the children on forms provided by the Minister.	24(1)(f)	Nov 18, 2025	
Comments: The daily attendance records did not accurately reflect the number of children present in each group. At the time of inspection, there were four groups of children, each with its own attendance record. However, the records did not correctly correspond to the children assigned to each group. While all educators were aware of the number of children in their care and their locations, the attendance records were not updated when children moved between groups. Attendance records must remain accurate and reflect the names of children in their current group at all times.			
8(2) The maximum number of children who may receive services at a full-time or part-time early learning and childcare centre, as indicated on the licence, shall not exceed 60 children, including the children of the operator.	8(2)	Nov 18, 2025	
Comments: The attendance records for November 17 and 18 indicate that 65 children were present on November 17 and 64 children on November 18. The center is licensed for a maximum of 60 children. Attendance exceeded the licensed capacity on both days. The operator is required to ensure that the number of children in attendance does not exceed the maximum of 60 as stated on the license.

General Comments

Educators were observed actively engaging with the children, participating in play, and maintaining positive, age-appropriate conversations. Supervision was consistent, and educators demonstrated attentiveness during transitions between indoor and outdoor spaces.

The following records were reviewed: Incident logs, fire drills, monthly review and maintenance plan for all stationary equipment, and daily attendance sheets.

Recommendations:

1. Inclusion Support Workers should not be reassigned to maintain staff-to-child ratios.
2. Inclusion Support Workers must be utilized for their intended purpose, providing additional support to the children who require it.
3. The management team is to implement procedures to maintain accurate attendance records during transitions.
